## **Patent Attorney Freelancer - Kollegenarbeit (mechanics /electronics)**

Our international patent firm located in Munich is looking for a qualified freelancer.

*What we are offering:*

- Developing your professional experience in the patent field with an outlook to a long-term cooperation with the firm
- Opportunities for absorbing multinational patent practices
- Various tasks, such as drafting patent applications, preparing replies to office actions and opposition proceedings

*What we are looking for:*

- A qualified European patent attorney
- Strong English language skills are essential
- A university degree in mechanics or electronics
- Interest and/or understanding in multinational patent practices
- Conscientious and reliable working attitude
- Diligence and motivation
- Experience in the following technical fields is useful: automobiles (in particular, transmissions, engines, motors, clutches, and controls thereof) and air-conditioners/heat pumps
