Dr. Andrew Hards

Pfarrstr. 14, 80539 München

Patent Attorney Candidate (chemistry)

Our international patent firm located in Munich is looking for a patent attorney candidate.

What we offer:

- Training in the patent field to become a European and German Patent Attorney with an outlook to a long-term position in the firm
- An international working environment
- Varied areas of responsibility and tasks, such as drafting patent applications, preparing replies to office actions and participation in opposition proceedings
- A modern workplace, located in the heart of Munich (subway: U4/U5: Lehel)

What we are looking for:

- German native speaker
- Strong English language skills are essential
- A university degree in chemistry, especially organic or physical chemistry or food chemistry
- An interest in working at the interface between technology, law and languages
- Fearlessness in drafting texts
- Conscientious, thorough and reliable working attitude
- Diligence and motivation

Please send your application with CV and reports to:
